So, if you would like to enjoy this trip, did not see Prague historical center yet, please register yourself for this part of the programme too. We would be pleased to see you by this opportunity.

**Jubilee Rally 2023**  
**14.6.-18.6. Kacov**

For those of you, interesting in WWII technique and historical bridges, it may be of interest, that directly at Kacov you can find a well preserved **Bailey Bridge Mk II** in not so common „double sidewall“ scheme, crossing the Sazava river. You can still find a lot of the marks of the producers of various steel components, coming from e.g. Cardiff, Scotland and various English companies.

Good news is also the fact, that local **Kacov brewery**, founded 1457, is still producing good beer, which has been practically tested.

We are looking forward to see you there on Jubilee Rally !

Sincerely Yours  
Czech ARIEL Club Committee
